

ARE YOU LOST *in the*

REGULATORY MAZE?

Turned around by ever-changing accreditation requirements?

G²MQSM

can lead you to safety!

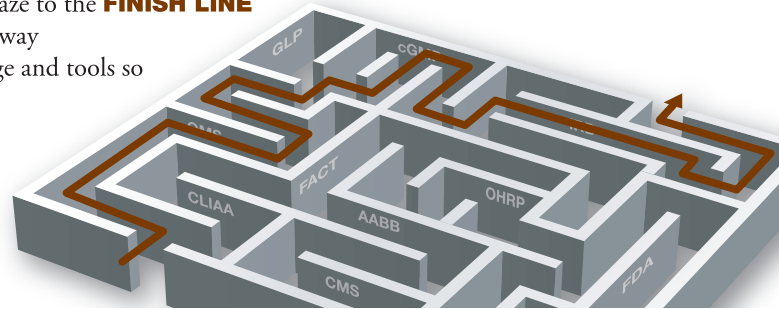

G²MQSM is a leading provider of “turn key” solutions tailored to meet your needs.

Our elite team of subject-matter experts (SMEs) represents over 74 years of senior management expertise and hands-on experience in compliance, quality management, regulatory affairs, clinical research, and collection and cell processing laboratories. Our SMEs have unique qualifications that make them the ideal choice for your organizational needs...

- 25 years experience as AABB, FACT, and CAP inspectors/assessors
- Past-board membership with ISCT board of directors (formerly ISHAGE)
- Published over 95 articles, book chapters and abstracts
- Numerous presentations in various local and national meetings

G²MQSM will quickly take you from start to finish by...

- Figuring out where you are in the process
- Providing you with a detailed map to achieve your objective
- Escorting you through the maze to the **FINISH LINE**
- Training your staff along the way
- Leaving behind the knowledge and tools so you won't get lost again

G²MQ™ delivers results...

- First-go-round FACT inspection achieved available highest level of accreditation; reduced preparation time by 60%; saved \$250K
- Commendable practices AABB re-accreditation inspection
- Zero discrepancies identified during FDA and State inspections
- Established from ground-up Cord Blood Banks, BM and Cell processing lab — # mons. Prep, up and running # months; saved \$K

Client Testimonial

“I have been doing [FACT] inspections for 8-years ... by far these are the best SOPS I have ever seen. The competency and training of staff is excellent. The new lab is state of the art and places the facility in a position to grow and capitalize on the future of stem cells (i.e., cardiology and neurology). The quality management plan is excellent.”
